RE: Environmental Assessment  
Sec. 16, T13S R12W  
Sec. 32, T12S R12W

Dear Mr. Daniels:

In looking through our files and maps, we find no sites plotted in the areas you specify as they have yet to be extensively surveyed. However, because sites exist in nearby areas and because intermittent washes and dry lakes exist in the areas of your interest, we can conclude there to be a reasonable probability of sites and therefore recommend an archeological field survey previous to any mining activity.

Please find enclosed our bill for a literature search.

If we can be of further service to you, do not hesitate to call on us.

Very sincerely,

*Lamar W. Lindsay*  
LaMar W. Lindsay
